Figure 1 is a perspective view of a rectangular electronic device 1. The device has a top surface 4. On the top surface, there is a central rectangular area 5 containing a grid of small circular elements. The front face 13 of the device features a lower section 14 with a grid of rectangular openings 19. A small rectangular protrusion 7 is located on the bottom right edge of the device.

FIG. 8

This figure is an exploded perspective view of a mobile phone assembly. It is divided into two main sections by a bracket on the right: 1002 (lower) and 1003 (upper).
Section 1003 includes a top cover (1700) with a series of circular openings, a middle housing (1800) with internal components like a keypad and display area, and a base housing (1500) with a connector (1501).
Section 1002 includes a battery (1200) with a label (1201) and a connector (1202), a back cover (1300) with a keypad (1301) and a display area (1303), and a connector (1203).
A handwritten note in a speech bubble says: "Please correct as illustrated below".
A bracket on the left groups the battery (1200) and the back cover (1300) together.

Please correct
as illustrated below
